

BR-500-PL

Balacchi cutting machines are characterised by particular cutting technology that allows easy handling of different kind of material. The various widths, lengths and shapes are readily available on the widest range of materials including fabrics, leather, carbon and grassfires, foams, acrylic, cardboard, ect.

Power supply	Three-phase 400 V / 50 Hz
Power input	20 kW
Dimensions	L 5600 mm x L 4500 mm x H (working table) 920 mm
Weight	1000 kg
Maximum load	100 kg
Useful cutting width	5000 mm
Carpet length	3400 mm
Useful cutting length	Unlimited with conveyor
Maximum cutting speed	1500 mm/s
Aspiration turbine power	16 kW
Security system	Photocell sensor + 5 emergency buttons to stop the processing instantaneously
Standard accessories	Oscillating knife Marking pen
Optional accessories	Rotary knife Pneumatic knife Milling head Punching tool V cutter Creasing tool Inkjet tool Video camera Over camera
PC	Included with the machine, Windows 10 Pro and possibility to upload additional softwares
Software	BalacchiCutCad (preinstalled), compatible with the principal CAD softwares, allows the continuous monitoring through intuitive graphic interface
Remote control	Yes
Possibility to connect other PCs	Yes
